Global Warming: Deception At The End Of The Age

Dear Precious Ones In The Eyes of the Lord,

The Scriptures are the remarkable Word of God for all those who love the Lord Jesus Christ and His appearing. They declare that the earth will not fail, even at the hand of man; not ever.

Genesis 8:21-22

21 And the LORD smelled the soothing aroma; and the LORD said to Himself, "I will never again curse the ground on account of man, for the intent of man's heart is evil from his youth; and I will never again destroy every living thing, as I have done.

22 "While the earth remains, Seedtime and harvest, And cold and heat, And summer and winter, And day and night Shall not cease."

This is a remarkable promise. It brings much joy to God's people, and they can take it to the bank. God never lies, and His Word is always reliable, accurate, and consistently true. Although we can expect that the world will always believe the opposite of God's Word, never has there been such religious delusion believed by so many at one time.

The fastest growing religion in the world today is not Islam and it is not Christianity. It is Global Warming. This new religion has all the fanaticism, radical militant fringe elements, apocalyptic fears, high priests/priestesses, and delusional theology that typify every pagan cult. Its churches are the schools, and its pulpits are nearly every government, movie house, television, and news media platform. Politicians are caving in to it's grip at an alarming rate.

A few facts are in order. First, the earth cycles naturally in warming and cooling periods. It always has, and scientists have proven that it occurs primarily because the sun cycles, not because of greenhouse gases. The sun's own "volcanic" surface spews thousands of atomic bomb-sized energy bursts from its surface all the time. Called sunspots, they erupt in cycles. They emit so much warming energy (and in their absence, so much cool-down effect) that significant weather interference from human activity on the earth is not just fanciful. It is breathtakingly stretching the facts.

"*The Global Warming Swindle*" was a well documented movie released by the BBC. Other powerful indictments of the global warming theology include such articles as: "*Climate Momentum Shifting: Prominent Scientists Reverse Belief in Man-made Global Warming - Now Skeptics*" can be found on the web at:

2. *New Peer-Reviewed Study Finds 'Warming is naturally caused and shows no human influence'* <http://science-sepp.blogspot.com/2007/12/press-release-dec-10-2007.html> (see footnote for more links to similar articles)¹

The logic for shifting opinions away from the bad science of the global warming argument is well founded. For example, did you know that melting ice in your soda glass does not increase the liquid level in your glass? Neither does Arctic ice melting increase the water level in the oceans. Did you know that over 95 percent of all "greenhouse gases" come from rotting vegetation? Add in active volcanoes and hundreds of thousands of acres of naturally occurring forest fires each year, and the scale of impact that human beings actually have on greenhouse gas generation shrinks to very small. Controlling the estimated 3 to 5% contribution of man, while good and proper to manage intelligently as a matter of good Biblical stewardship of God's creation, is a drop in the bucket, and very marginal. Certainly in light of this, there is no impending end of the earth message to be trumpeted except the one indicated by the Scriptures regarding the return of our Lord and Savior, Jesus Christ.

One has to abandon reality to believe the claims of global warming. Obviously, climate change happens. God has been orchestrating it for thousands of years.

For example, scientists are now correlating warming trends and CO2 levels (both of which they can chart precisely for thousands of years from core samples of glacial ice) as one of the primary causes of the world's emergence from the dark ages. The increased prosperity from increasing harvests in warming cycles is now thought to have been a major factor in breaking the poverty cycle of medieval Europe. A similar expectation is being suggested for the modern warming trend as well.

As of this moment as I am writing this article in mid-April, it is snowing outside in New England. In the last few hours, eight inches (about 20cm) have fallen. Some 20 inches are expected in the largest snowfall of the winter thus far. It is predicted to snow continuously for the next two to three days. This is not unusual for winter in my area. Except it is no longer winter. It is spring! Snow is usually gone by the end of March, and here it is the middle of April. Global warming?

There are even some years in the recorded past two hundred years that New England has gone without so much as a night of frost all year long, and other years in which it snowed every single day except one (even during the summer) all the year long. In the 1970's the world was concerned about global cooling, and an impending ice age. Now it is global warming thirty years later? The answer is that weather and climates cycle naturally with no help from human beings.

But I must say that in the past century, in the years 1900 to 2000, there has indeed been a warming trend. Not the 2 to 3 degrees increase of the medieval period around the year 1,000 AD mind you, but about 7/10ths of one degree (no kidding – that is all there is to this world hysteria, seven tenths of one degree increase).

But here is a curious fact. The largest increase of this “global warming” of 7/10th of a degree occurred between 1900 and the 1940's. Yet global warming theologians don't mention these facts. Nor do they consider that if man's industrialized CO2 generation were actually contributing to the warming trend to any significant degree, then it would have most impacted the later half of the century when most industrialization took place.

Watch the BBC video, or read some of the articles cited and you will more easily be able to separate global fact from global fiction.

But there is something much more sinister afoot. And this is the real point of this article. When Christians buy into global warming, a portion of their faith in God becomes corrupted from Biblical truth. How so? Because underlying the global warming theory is a new and godless belief system, not merely a set of false meteorological facts. You might not think global warming competes with Christian faith. You had better think again.

When we believe something that is an untrue fact, we simply believe wrong information. But when we believe an entire wrong theology based on a contrived system of wrong facts, we stand in religious delusion. And when we are willing to defend that delusion with blind passion against all logical, scientific fact, we have become seared with deception. The deception on the scale we see today on this issue is of Matthew 24 proportion:

Mathew 24:24-25

24 For false messiahs and false prophets will appear and produce great signs and omens, to lead astray, if possible, even the elect.

25 Take note, I have told you beforehand.

The satanic purpose behind all false doctrines is to deceive, to lead astray, the elect of God. Who is the elect of God? Anyone who confesses Jesus Christ as their Lord and Savior, and believes that God raised Him from the dead (Romans

10:9-10). Anytime false doctrines are promoted as true, and especially those which become woven into a fabric of fundamental principles which contradict God's Word, and God's order of creation, it becomes a religious issue of faith. Political, socio-economic, and environmental window dressings aside, global warming is neither a world problem, nor is there any possible way that actions of mankind could change much about it if there even was a problem.

In global warming, we are really speaking of a religious persuasion, a "new" form of animism – nature worship. It shares many of the same features of ancient sun and moon worship in which life was assumed to be driven by natural forces which must be appeased.

Al Gore and other such preachers have invented a theory to appease the global warming god. It involves de-industrializing prosperous national economies under the theoretical (religious) notion that doing so will appease the god of global warming.

The demonic purpose of deception is always to compromise Godly faith. And global warming faith has perhaps the greatest end-times purpose of any such religious theology ever devised. It even takes more "blind faith" than Darwin in our times.

To begin to understand why global warming is an anti-Christ religion, we must start at an earlier time -- the tower of Babel.

Genesis 11:1-6

Now the whole earth used the same language and the same words.

2 And it came about as they journeyed east, that they found a plain in the land of Shinar and settled there.

3 And they said to one another, "Come, let us make bricks and burn them thoroughly." And they used brick for stone, and they used tar for mortar.

*4 And they said, "Come, **let us build for ourselves** a city, and a tower whose top will reach into heaven, **and let us make for ourselves a name**; lest we be scattered abroad over the face of the whole earth."*

5 And the LORD came down to see the city and the tower which the sons of men had built.

6 And the LORD said, "Behold, they are one people, and they all have the same language. And this is what they began to do, and now nothing which they purpose to do will be impossible for them."

Babel was all about pride and independence against God. As noted in verse four above, It was driven by a widely captivating (but contrived) fear, which fueled a rebellion which did not sit well with God. It does not sit well with Him today.

About two months ago I was in Brussels at the headquarters of the European Union. While there with a wonderful fellow minister, we noticed a statue that was prominently displayed in front of one of the many opulent buildings. It consisted of a white peace dove sitting on top of a globe of the world. Holding up the globe were about six or eight human arms of several colors and races. With shoulders on the ground, the arms extended upward to hold up planet earth.

The two obvious messages communicated by the statue were that through the combined unity of mankind, peace will come to the planet, and secondly that through the cooperation of the diversity of many, man can fix the world and bring peace. Of course, every Christian knows that peace is unavailable outside of the Prince of Peace, Jesus Christ, and that men's solutions are incapable of fixing anything when God is not involved. But that's a whole other subject for a later time.

Earlier that day I had noticed a large EU diorama adorning a nearby building which showed EU's leadership in "saving the planet from global warming." With this in mind, and pondering the statue with the hands, I was disturbed in my

spirit. So, I asked the Lord. “What’s with this statue?” He immediately responded with three words: “Tower of Babel.”

The Lord was showing me that the arrogance of man saving his planet from imaginary world catastrophe is precisely the same arrogance that founded the tower of Babel. And here’s what Christians must understand about it. What under laid the Tower of Babel was a desire for one world control, becoming like God. Similarly, what underlies the new religion of global warming is the desire for one world government, and the same desire to be like God.

The Global Warming religion is becoming the primary justification for expanded European Union and United Nations dominance. What better reason for centralized political control than a presumed, enhanced capacity to avert a potential worldwide disaster? What better such catastrophe could there be for justifying such a centralized world government than threatened destruction of the planet? All that is needed is a good theory that people can accept by faith, and a plausible solution that seems to warrant a one world governmental authority to fix.

Since perception is as good as reality when it comes to pagan religious cults, global warming fits the need precisely. All one needs is a culprit (whether real or perceived), an evil doer.

How about greenhouse gases from industrialized countries? Isn’t corporate business always the easiest culprit to accuse? Never mind that the aforementioned ice core samples of thousands of years of data have shown zero correlation between global temperatures and greenhouse gases.

To sell the fiction, preachers are needed. For this, the Al Gore’s, Heidi Cullen’s, and Sheryl Crowe’s are highly visible leaders in the parade. In assessing their value in promoting the global warming cult, we do well to remember what Hitler declared -- that people will believe a big lie much more than a small one, especially if it is repeated often enough. If you take the time to read up on what scientists are really saying, you will readily see the many big lies which create the plot.

Thus news media, television, and choirs are being recruited from the new “churches” of public education institutions. Schools as young as first and second grade are being shown Al Gores’ “An Inconvenient Truth,” while Heidi and Sheryl are taking their message on a bus tour to college campuses around the nation even as I am writing this article.

Denominations are also falling to the global warming deception. Former presidents Bill Clinton and Jimmy Carter have become point men, founding apostles if you will, for an entire new denomination of Baptists which will feature environmental religious doctrines as part of their canon of faith.

The arrogance of global warming faith tolerates no dissent. Like any mean-spirited, anti-Christ religion, this one is cruel and vicious against anyone who dissents.

Christians may wonder about the beast of Revelation which requires allegiance and renouncing of Christian faith. He will take lessons from the global warming zealots of today.

But Jeremiah has a timely truth. Those who love the Lord will see its profound message for today’s world:

Jeremiah 2:13

11 Has a nation changed its gods, even though they are no gods? But my people have changed their glory for something that does not profit.

12 Be appalled, O heavens, at this, be shocked, be utterly desolate, says the LORD,

13 for my people have committed two evils: they have forsaken me, the fountain of living water, and dug out cisterns for themselves, cracked cisterns that can hold no water.

In digging the new theological cistern called global warming, we forsake God. Little evidence exists for global warming caused by mankind. It is not even a case of deciding to support global warming because “it might be true, and we can’t afford to make a mistake.” Global warming outside of natural God-established weather cycles is as ridiculous (and unscientific) a notion as was the “coming ice age” of the 1970’s. While one may say that industrial pollution does contribute in a very small and nearly inconsequential way, it is obvious that warming and cooling trends are all but exclusively caused by naturally occurring, God-ordained weather cycles. When blind faith causes the skewing of scientific fact **and** Biblical truth into new apocalyptic theory, it clearly changes the public debate from mere mis-information into a dangerous religion. It thus becomes a mainstream alternative faith which not only challenges Christian faith, but also becomes a Tower of Babel II offense toward God.

Hebrews 1:3 declares that it is Jesus Christ Who sustains the earth by the daily *rhema* word of His power (Hebrews 1:3). The God who created the earth has always had an ongoing maintenance program that works with or without man’s contribution.

May God’s people arise in truth and love, humbly praying that the deception of our times is broken, and the truth of Jesus Christ is spoken around the world. His truth is still what sets a people free. May we be free of this new global warming cult as we consider it’s most powerful antidote, noted in 2 Chronicles:

2 Chronicles 7:14

"if My people

who are called by My name

will humble themselves,

and pray

and seek My face,

and turn from their wicked ways,

then I will hear from heaven, and will forgive their sin and heal their land.

The world desperately needs the message of the Gospel of the Kingdom, moved by the prayers, humility, and love of those who are willing to stand for God’s wonderful Word, and not be sidetracked by non-issues of the day. God’s construction of the earth is a marvelous, enduring creation. The natural balance and order of His work is remarkably resilient, and was created for mankind with the present in mind. Even in his worst arrogance, man cannot destroy what God has created. And when men steward what God has created, first and foremost by stewarding their own hearts in reverence to Him, that creation gets even better.

With you for His glorious return,

Paul and Rita Norcross

Some Brief Ministry News...

NEW BOOK RELEASE!!

We are excited about a new book released this past month called “How Can I Get My Healing From God?” It deals with helping God’s people overcome issues of faith for gaining and keeping their healing from God. You can read it on our website or you can order a copy from our bookstore. Thought provoking, and very “relationship” focused, this book is helping many to understand how to receive their healing from our precious and loving Great Physician, Jesus Christ. You can order it by going on line to the website, or by sending a check or money order for \$12 (\$10 plus \$2 shipping) to the ministry address below.

MISSION TO GUATEMALA

Please be praying for Pastor Paul as he travels and ministers to wonderful saints in Guatemala April 27 through May 8. He will be teaching pastors, leaders meetings, and church services in various village and city churches and also co-teaching a conference at a Bible school. Please be praying for a mighty move of the Holy Spirit throughout these meetings, for traveling mercies, and health for Paul and the wonderful saints and family back home while he is gone. We anticipate wonderful Kingdom blessings on God’s people, and powerful impact far beyond Guatemala as students from the school arise into their God-given purpose, plan and destiny throughout Central and South America. Gloria a Dios!

At the same time, please keep Pastor Carl Fox in your prayers as he ministers in Romania during the same time that Paul is in Guatemala. May the Lord continue to send forth laborers in the harvest!
